Greeting Friend,

My name is Julie Timan and I am the Development Director for the Waldorf School of San Diego. We are a non-profit liberal arts school located in City Heights and are focused on being socially and environmentally conscious. Our mission is to awaken each student's capacity for love of learning, for independent thinking and for heartfelt service to the world. As with most non-profit independent schools, 20% of our expenses are generated from our fundraising events. Your support of these events ensures that we fulfill our mission and enables it to reach beyond our community and into the hearts of all who seek education at The Waldorf School of San Diego.

This year we are holding a spring Gala on Saturday May, 18th as a fundraiser for our school. Our plan is to raise enough funds to help provide for a loft in our Kindergarten room as well as a technical package for our high school, to include laptops and media equipment and an additional language art reading resource package for our lower school.

We are seeking your support to provide for a gift certificate or donation item that we can use for our live and silent auction.

Thank you for your consideration of our school.

With gratitude,

Julie Timan

Development Director
